

WHY NIKKI BARNES?

Every great fictional universe has one central figure whose perspective allows readers to explore a much larger world.

- Sherlock Holmes has Baker Street.
- Harry Bosch has Los Angeles.
- Inspector Rebus has Edinburgh.

Nikki Barnes has Britain.

She is uniquely positioned to understand the interconnected worlds of medicine, policing and public service.

- Her medical background gives her compassion.
- Her military service gives her resilience.
- Her policing career gives her determination.
- Together they make her more than a detective.
- They make her an observer of society.
- Nikki does not merely solve crimes.
- She seeks to understand why they happen.
